

Eco Club Beach Clean

On the 12 of October on a horribly rainy day the Eco club, their brave families and a group of St Michael's teachers braved the wind and achieved a beach clean down at Sandbanks we were surprised at the amount we collected.

We covered a huge piece of beach and we collected lots of strange rubbish like;

- Millions of cigarette butts
- A horrible amount of beer bottle tops
- Broken glass
- Fishing rope
- 5 coffee flasks
- Tea bags
- Mouldy lifesaving buoyancy aid
- 4 pairs of pants
- Swimsuit
- Bodywarmers
- And lots of plastic bottles
- A barbeque

We are very proud of our achievements and hope that after all we did to clean our amazing home that other people follow our example and walk the extra distance to the nearest rubbish bin.

Thank you to all the generous people who braved the weather and to all Mrs Paton's friends who helped save our planet.

Love from Eco club
